

Beginning Jan. 4, 2009, the following changes will be made to Powerball in conjunction with Florida joining the popular multi-state game. With the addition of millions of players, the Multi-State Lottery Association and its member states created changes to the game that will result in the following features:

- Starting jackpot of \$20 million (largest in the world)
- Average jackpot is expected to increase from \$95.5 million to \$141 million
- Any winner who plays Power Play and matches all five white ball numbers will win \$1 million, regardless of the multiplier selected. (As always, all set prizes and Power Play prizes may be reduced if claims exceed available prize fund.)
- Four white ball numbers will be added, which means players will select five numbers from 1 to 59
- Three red Powerball numbers will be subtracted, which means players will choose one red number from 1 to 39
- The overall odds of the game have been reduced to add more than 3 million extra prizes won per year
- Overall odds to win a prize are 1 in 35
- Odds to win the jackpot are 1 in 195.2 million

For more details about these and other games, see your nearest Lottery retailer, visit www.tnlottery.com or call Player Services at 1-877-7TN-PLAY. In the Nashville area, call 254-4946.
